

Marke: SUNWARD
Modell: SWE 35UF

Preis: POA

Ref: SUN5008

Marke/Modell: SUNWARD SWE 35UF

Jahr: 2025

Bedingung: Brand New

Zusätzliche Daten.:

- Machine weight: 3850kg
- 5 year warranty
- 3 year full engine warranty
- Kubota EU stage V engine
- Complete with 3 buckets
- Hydraulic quick hitch
- Zero tail swing
- 2 speed tracking

satile and Optimized

Engineering and design produce optimal, versatile machines

At Sany, it's not just innovation leads to better – all engineering and design are focused on generating optimal value for the owner. So, our machines can be used in a large variety of working conditions and applications – exactly what you're looking for in a mini excavator, especially with its zero-tail design.

Equipped from the outset

Our Sany excavators have it all from the day it leaves the factory. Designed to save fuel and boost the engine's consumption, our engines are equipped with the latest electronic control system, which further energy-saving capabilities. Along with the latest electronic control system, our machines are equipped with a variety of intelligent features for more efficient operation.

Our Sany excavators have a variety of intelligent features for more efficient operation. Our Sany excavators have a variety of intelligent features for more efficient operation.

A true zero-tail machine

All kinds of jobs can be completed with the true zero-tail Sany excavator. The machine hugs the wall to deliver a precise and optimized job.

Full auxiliary lines as standard

Thanks to the complete auxiliary settings built in as standard, the Sany excavator provides fully adjustable pressure and flow monitoring for all types of attachments on any job site.

This results in no less than 3 separate auxiliary lines as standard (while the market provides 1 to 2 lines as standard), which are distributed as follows:

- 1 line at the front end of the arm (S002), which is used primarily for the hydraulic quick hitch.
- 1 line for greater flow to fulfill the requirements of a flow-demanding attachment, such as a breaker (S002).
- 1 line with lesser flow for attachments that are equipped with 2 actuators (S002).
